DESIGNER PORTFOLIO

ABOUT ME

ARCHITECT

HASSAN JAVID

Hassan is a visionary architect and designer with over 8 years of professional experience in crafting residential, commercial, and mixed-use spaces. His work is rooted in a balance between modern minimalism and warm, functional design, creating environments that are both visually refined and deeply livable.

He strongly believe that good architecture speaks quietly but lasts long. His design process prioritizes sustainability, human-centric planning, and contextual sensitivity, ensuring each space responds naturally to its users, climate, and purpose. From early concept development to detailed execution, He focuses on precision, clarity, and constructability.

A modern two-story residential building at dusk. The building features a central dark vertical pillar and two wings with balconies. Warm interior and exterior lighting is visible. A white sports car is parked in the driveway. Palm trees are visible on either side.

COMMERCIAL DESIGN

A modern commercial building at night, featuring a central entrance with a large, illuminated, geometric-patterned facade. The building has multiple levels with balconies and is surrounded by landscaped grounds with flowers and walkways. The sky is dark blue, and a dome is visible in the background. The text "COMMERCIAL DESIGN" is overlaid in the bottom left corner.
